

CUE CARD

Describe your favourite curtain.

You should say

Which curtain it is?

When and where did you see it?

What it looks like?

Why you liked it so much?

- With the increase in number of rooms in homes, furnishing every room has become equally important.
- Curtains are one such material that is used to enhance the beauty of not only homes but also offices, theatres and so on.
- Here I would like to mention about a unique curtain that I really liked and was mesmerised by.
- It was the stage curtain in my college auditorium. It is made of large piece of shiny velvet cloth.
- Curtain is of sky blue colour with contrast of navy blue shade. It covers whole stage and can be easily dragged with the help of rope.
- On the top side, there are some frills in the semi- circle shape. They are golden with unique design.
- The real purpose of this curtain is to mask backstage areas of stage from spectators.
- Couple of years ago, i attended ceremony of convocation and noticed these curtains while we all were waiting for function to begin.
- The reason that allured me was its shiny velvet fabric along with frills.

- Not only this, it also had a thoughtful quote printed on it “life is short, enjoy it to full”
- That curtain made me realise that after completing our studies we mostly get include in making our careers and forget to live our life.
- I believe that curtain was not only mask to stage but also to our lives.
